Last season was a challenging one, everybody in our industry has been effected one way or the other. Beekenkamp Plants is looking positively to the future, trying to live a “normal” life as much as possible, we are very excited for the new season 2020 -2021. Like you, Beekenkamp Plants is passionate about breeding, about plants and growing together. Introducing new genetics, new products compositions just to ensure that we continue to offer you and your customers the best plants in the best format. By taking full advantage of our international expertise and knowledge we are fine-tuning our services and product range continuously. Where we are constantly looking to align our products with current market influences and the supply chain. It is our aim to support your market with the most profitable products that work best for you. Get in touch with our committed Beekenkamp Plants team, we are all looking forward to growing with you for the future.

Die letzte Saison war eine Herausforderung. Jeder in unserer Branche ist auf die eine oder andere Weise betroffen. Beekenkamp Plants blickt positiv in die Zukunft. Wir versuchen, so weit möglich ein „normales“ Leben zu führen und freuen uns sehr auf die neue Saison 2020-2021. Wie auch bei Ihnen, ist die Leidenschaft von Beekenkamp Plants die Züchtung, Pflanzen und ein gemeinsames Wachstum. Die Einführung neuer Genetik, neuer Produktzusammensetzungen, um sicherzustellen, dass wir Ihnen und Ihren Kunden weiterhin die besten Pflanzen im besten Format anbieten. Indem wir unser internationales Know-how und Wissen voll ausnutzen, optimieren wir kontinuierlich unsere Dienstleistungen und unser Produktangebot. Wobei wir ständig danach streben, unsere Produkte an den aktuellen Markteinflüssen und der Lieferkette auszurichten. Unser Ziel ist es, Ihren Markt mit den profitabelsten Produkten zu unterstützen, die für Sie am besten geeignet sind. Nehmen Sie Kontakt mit unserem engagierten Beekenkamp Plants-Team auf. Wir freuen uns alle darauf, mit Ihnen für die Zukunft zu wachsen.

Afgelopen seizoen was erg uitdagend. Iedereen in onze sector werd op een of andere manier geraakt. Beekenkamp Plants kijkt met een positieve blik naar de toekomst. We gaan nu weer zo veel mogelijk het “normale” leven proberen te leiden, we zien het nieuwe seizoen 2020 – 2021 met vertrouwen tegemoet. Net als u, heeft Beekenkamp Plants een passie voor veredeling, en planten; wij willen samen met u groeien. Door nieuwe genetica en nieuwe productvormen aan te bieden willen we er zeker van zijn dat we u en uw klanten de beste planten in de juiste vorm aan kunnen bieden. Door maximaal gebruik te maken van onze internationale expertise en kennis verbeteren we onze dienstverlening en ons assortiment continu. We streven er constant naar om onze producten aan te laten sluiten op de huidige eisen van de markt en de supply chain. Het is ons doel om uw markt te op die manier ondersteunen met de meest winstgevende producten die het beste voor u werken. Neem contact op met uw toegewijde Beekenkamp Plants team, we kijken er naar uit om met u aan de toekomst te bouwen.

La saison passée n'était pas facile. Tout le monde dans notre métier a été touché d'un façon ou l'autre. Beekenkamp Plants se concentre à l'avenir d'un façon positif. Reprenant la vie « normale » le mieux possible nous nous réjouissons de la nouvelle saison 2020-2021. Comme Vous, Beekenkamp Plants est passionné de la sélection, des plantes et de grandir avec vous. Par l'introduction de la nouvelle génétique et des nouvelles formes de plantes nous voulons être sûr que nous pouvons fournir des plants dans le bon format à vous et votre clientèle. En utilisant au maximum notre expertise internationale et notre connaissance nous améliorons constamment notre service et l'assortiment. Nous nous efforçons constamment d'adapter nos produits aux besoins du marché et de la chaine d'approvisionnement. C'est notre but de soutenir votre marché de ce façon avec des produits le plus profitable pour vous. Vous êtes bien invité de contacter l'équipe Beekenkamp Plants, nous nous attendons avec impatience à améliorer l'avenir. Plants-Team auf. Wir freuen uns alle darauf, mit Ihnen für die Zukunft zu wachsen.

CERTIFICATIONS AND GUARANTEES

In this catalogue we are launching a new form of product for Beekenkamp Plants: the 264-cell and the 128-cell BKX tray. Many of our customers use a potting machine. With this innovative tray we can offer you a product that will facilitate the potting-up process, as the young plants can easily and quickly be removed from the tray. The starting material remains intact, which improves the rooting and initial growth of the plant. In the European market we have been seeing a trend towards reusable trays for some time now. At Beekenkamp we are committed to reducing our impact on the environment and regard this trend as an important solution for the future. The BKX tray is designed to be reused. Once you have potted up your plants, you can return the tray to Beekenkamp Plants where it will be cleaned and prepared for a new crop cycle. The reusable tray comes with a barcode sticker and can therefore be easily tracked. By making these trays reusable, we hope to be able to make an effective contribution to improving the environment.

Dans ce catalogue, nous donnons le coup d'envoi avec une nouvelle forme de produit pour Beekenkamp Plants : le plateau BKX 264 et le 128 alvéoles. Nombreux de nos clients utilisent une rempoteuse. Ce plateau innovant nous permet de proposer un produit qui vous facilite l'empotage ; vous pourrez en effet extraire les jeunes plants du plateau, rapidement et sans problème. Le matériel de base reste intact, ce qui améliore le racinement et le démarrage du jeune plant. Un plateau réutilisable est depuis un certain temps en cours de développement sur le marché européen. Chez Beekenkamp, nous accordons une grande importance à la réduction de l'impact environnemental et pensons que cette tendance est la solution pour l'avenir. Le plateau BKX a été conçu pour être utilisé plusieurs fois. Lorsque vous avez empoté les plants, le plateau est réexpédié chez Beekenkamp Plants, où il est nettoyé et préparé pour un nouveau cycle de culture. Étant muni d'un autocollant avec un codebarres, le plateau réutilisable peut parfaitement être suivi. Avec ce plateau réutilisable, nous espérons contribuer au respect de l'environnement.

Mit diesem Katalog stellen wir eine neue Produktart von Beekenkamp Plants vor: das 264-Loch und die 128 Loch BKX-Tray. Viele unserer Kunden nutzen eine Topfmaschine. Mit diesem innovativen Tray können wir ein Produkt anbieten, das Ihnen die Arbeit beim Topfen erleichtert, weil sich die Jungpflanzen schnell und problemlos aus dem Tray nehmen lassen. Das Ausgangsmaterial bleibt unversehrt.

Dies verbessert die Wurzelbildung und das weitere Wachstum der Pflanzen. Auf dem europäischen Markt ist schon seit einiger Zeit ein Trend zu wiederverwendbaren Trays festzustellen, den sogenannten Mehrweg-Trays. Wir bei Beekenkamp sind davon überzeugt, dass es wichtig ist, die Umweltbelastung zu reduzieren, und wir sehen diesen Trend als eine wichtige Lösung für die Zukunft. Das BKX-Tray ist speziell für die mehrfache Verwendung entwickelt worden. Nachdem die Pflanzen bei Ihnen getopft wurden, wird das Tray von Beekenkamp Plants zurückgenommen. Es wird gereinigt und dann für ein neuer Produktionszyklus wiederverwendet. An diesem Mehrweg-Tray befindet sich ein Aufkleber mit einem Barcode, so dass ein Tracking beziehungsweise die Weiterverfolgung des Trays gut und leicht möglich ist. Durch die mehrfache Verwendung desselben Trays hoffen wir, einen guten Beitrag zum Umweltschutz zu leisten.

Met deze catalogus maken wij een start met een nieuwe productvorm voor Beekenkamp Plants: de BKX-tray 264 gaats en de 128 gaats. Veel van onze klanten maken gebruik van een oppotmachine. Met deze innovatieve tray kunnen we een product aanbieden dat u bij het oppotten het werk vergemakkelijkt, omdat de jonge planten snel en probleemloos uit de tray kunnen worden gehaald. Het uitgangsmateriaal blijft onbeschadigd waardoor de beworteling en weggroei van de plant verbeterd. In de Europese markt is al langer een ontwikkeling naar een meermalige tray ingezet. Bij Beekenkamp vinden wij het belangrijk dat het milieu minder wordt belast en wij zien deze tendens als de oplossing voor de toekomst. De BKX-tray is ontworpen om meerdere malen te worden gebruikt. Nadat de planten bij u zijn opgepot komt de tray weer terug naar Beekenkamp Plants en wordt deze gereinigt en voorbereid voor een nieuwe teeltronde. De herbruikbare tray is voorzien van een sticker met barcode en kan zo goed worden gevolgd. Met het meermalig gebruik van dezelfde tray hopen wij zo een goede bijdrage te kunnen leveren aan een beter milieu.

- ▶ Perfect retrieval
- ▶ Reducing environmental impact
- ▶ Extremely suitable for automatic potting
- ▶ Proven advantage X-tray

Product Management & Marketing

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are

THE APPLICATION OF MODERN BREEDING TECHNIQUES IS THE KEY TO SUCCESS AT BEEKENKAMP PLANTS TODAY.

the three main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of

the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain. Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivationdatabase contains extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw

inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the

THE MARKETING TEAM IS LUCKY ENOUGH TO DRAW INSPIRATION FROM THE WHOLE CHAIN INCLUDING THE CONSUMER.

most successful partnerships have built upon a long history of collaboration. North America is important to the Marketing department, where Sales, Product Development and Breeding departments come together in order to see how we can assist

you in the best way. Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf-life testing room or trial garden.

THE PLANT

Campala is the brand name for a range of different Campanula varieties. The Campala fits into any living room, patio or garden, is easy to combine with other plants, shows excellent results in the shelf life tests and is perfect for the gift market.

The Campala is available in different pot sizes and is very suitable for running large retail promotions.

FLOWERING TIME

The Campala can be offered as a houseplant early in the season. With its white and deep blue colours is a prelude to the coming spring.

The Campala is very suitable as an outdoor plant from May to September. Due to its vibrant colour this strong plant attracts the end consumer and bees love the Campala too!
