Dear Grower,
 We would like to introduce you to the new Beekenkamp Plants BV assortment flowering spring plants 2019- 2020.
 By a close collaboration with various breeders, we are happy to work on a good and innovative assortment. As Beekenkamp we are involved in creating opportunities for our customers. This is only possible by being at home in the market and being open to new opportunities.
 We wish you much pleasure in viewing our new catalog.
 Sincerely!

Sehr geehrter Erzeuger,
 Wir möchten Ihnen das neue Beekenkamp Plants BV Frühjahrsblüheresortiment 2019 - 2020 vorstellen.
 In enger Zusammenarbeit mit verschiedenen Züchtern arbeiten wir gerne an einem guten und innovativen Sortiment. Als Beekenkamp sind wir an der Schaffung von Möglichkeiten für unsere Kunden beteiligt. Dies ist nur möglich, wenn Sie auf dem Markt zu Hause sind und neuen Möglichkeiten offen stehen.
 Wir wünschen Ihnen viel Spaß beim Betrachten unseres neuen Katalogs.
 Mit freundlichen Grüßen

Cher producteur,
 Nous aimerions vous présenter le nouvel assortiment de plantes de printemps fleuries de Beekenkamp Plants BV pour 2019 - 2020.
 Grâce à une collaboration étroite avec différents obtenteurs, nous sommes heureux de travailler sur un assortiment innovant et de qualité. En tant que Beekenkamp, nous sommes impliqués dans la création d'opportunités pour nos clients. Cela n'est possible qu'en étant à l'aise sur le marché et en s'ouvrant à de nouvelles opportunités.
 Nous vous souhaitons beaucoup de plaisir à consulter notre nouveau catalogue.
 Sincèrement

Geachte Kweker,
 Wij presenteren u graag het nieuwe assortiment voorjaarsbloeiers 2019 - 2020 van Beekenkamp Plants BV.
 Door een nauwe samenwerking met verschillende veredelaars werken we graag aan een goed en innovatief assortiment. Als Beekenkamp zijn we betrokken bij het creëren van kansen voor onze klanten. Dit is alleen mogelijk door thuis te zijn in de markt en open te staan voor nieuwe mogelijkheden.
 Wij wensen u veel plezier bij het doornemen van onze nieuwe catalogus.
 Met vriendelijke groet!

Beekenkamp Plants B.V.

BKX-tray

In this catalogue we are launching a new form of product for Beekenkamp Plants: the 264-cell BKX tray. Many of our customers use a potting machine. With this innovative tray we can offer you a product that will facilitate the potting-up process, as the young plants can easily and quickly be removed from the tray. The starting material remains intact, which improves the rooting and initial growth of the plant. In the European market we have been seeing a trend towards reusable trays for some time now. At Beekenkamp we are committed to reducing our impact on the environment and regard this trend as an important solution for the future. The BKX tray is designed to be reused. Once you have potted up your plants, you can return the tray to Beekenkamp Plants where it will be cleaned and prepared for a new crop cycle. The reusable tray comes with a sticker with a bar code and can therefore be easily tracked. By making these trays reusable, we hope to be able to make an effective contribution to improving the environment.

Plateau BKX

Dans ce catalogue, nous donnons le coup d'envoi avec une nouvelle forme de produit pour Beekenkamp Plants : le plateau BKX 264 alvéoles. Nombreux de nos clients utilisent une rempoteuse. Ce plateau innovant nous permet de proposer un produit qui vous facilite l'empotage ; vous pourrez en effet extraire les jeunes plants du plateau, rapidement et sans problème. Le matériel de base reste intact, ce qui améliore le racinement et le démarrage du jeune plant. Un plateau réutilisable est depuis un certain temps en cours de développement sur le marché européen. Chez Beekenkamp, nous accordons une grande importance à la réduction de l'impact environnemental et pensons que cette tendance est la solution pour l'avenir. Le plateau BKX a été conçu pour être utilisé plusieurs fois. Lorsque vous avez empoté les plants, le plateau est réexpédié chez Beekenkamp Plants, où il est nettoyé et préparé pour un nouveau cycle de culture. Étant muni d'un autocollant avec un code-barres, le plateau réutilisable peut parfaitement être suivi. Avec ce plateau réutilisable, nous espérons contribuer au respect de l'environnement.

NEW

- ▶ Perfect retrieval
- ▶ Reducing environmental impact
- ▶ Extremely suitable for automatic potting
- ▶ Proven advantage X-tray

- ▶ Facile à retirer
- ▶ Réduire l'impact environnemental
- ▶ Extrêmement approprié pour le repotage automatique

- ▶ Hervorragend geeignet für Topfroboter
- ▶ Bewährter X-Tray

- ▶ Perfecte uithaalbaarheid
- ▶ Reduceren van milieubelasting
- ▶ Uitermate geschikt voor automatisch oppotten
- ▶ Bewezen voordeel X-tray

BKX-tray

Mit diesem Katalog stellen wir eine neue Produktart von Beekenkamp Plants vor: das 264-Loch-BKX-Tray.

Viele unserer Kunden nutzen eine Topfmaschine. Mit diesem innovativen Tray können wir ein Produkt anbieten, das Ihnen die Arbeit beim Topfen erleichtert, weil sich die Jungpflanzen schnell und problemlos aus dem Tray nehmen lassen. Das Ausgangsmaterial bleibt unversehrt. Dies verbessert die Wurzelbildung und das weitere Wachstum der Pflanzen.

Auf dem europäischen Markt ist schon seit einiger Zeit ein Trend zu wiederverwendbaren Trays festzustellen, den sogenannten Mehrweg-Trays. Wir bei Beekenkamp sind davon überzeugt, dass es wichtig ist, die Umweltbelastung zu reduzieren, und wir sehen diesen Trend als eine wichtige Lösung für die Zukunft.

Das BKX-Tray ist speziell für die mehrfache Verwendung entwickelt worden. Nachdem die Pflanzen bei Ihnen getopft wurden, wird das Tray von Beekenkamp Plants zurückgenommen. Es wird gereinigt und dann für ein neuer Produktionszyklus wiederverwendet. An diesem Mehrweg-Tray befindet sich ein Aufkleber mit einem Barcode, so dass ein Tracking beziehungsweise die Weiterverfolgung des Trays gut und leicht möglich ist. Durch die mehrfache Verwendung desselben Trays hoffen wir, einen guten Beitrag zum Umweltschutz zu leisten.

BKX-tray

Met deze catalogus maken wij een start met een nieuwe productvorm voor Beekenkamp Plants: de BKX-tray 264 gaat.

Veel van onze klanten maken gebruik van een oppotmachine. Met deze innovatieve tray kunnen we een product aanbieden dat u bij het oppotten het werk vergemakkelijkt, omdat de jonge planten snel en probleemloos uit de tray kunnen worden gehaald. Het uitgangsmateriaal blijft ongedeerd waardoor de beworteling en weggroei van de plant verbeterd.

In de Europese markt is al langer een ontwikkeling naar een meermalige tray ingezet. Bij Beekenkamp vinden wij het belangrijk dat het milieu minder wordt belast en wij zien deze tendens als de oplossing voor de toekomst.

De BKX-tray is ontworpen om meerdere malen te worden gebruikt. Nadat de planten bij u zijn opgepot komt de tray weer terug naar Beekenkamp Plants en wordt deze gereinigd en voorbereid voor een nieuwe teeltronde. De herbruikbare tray is voorzien van een sticker met barcode en kan zo goed worden gevolgd. Met het meermalig gebruik van dezelfde tray hopen wij zo een goede bijdragen te kunnen leveren aan een beter milieu.
